

The image shows a PyCharm IDE window with the 'Run' console open. The console displays the output of a Python script named 'funtions.py'. The script contains three functions: 'Area of a Circle', 'Total due with tax', and 'Fahrenheit to Celsius'. Each function is called with user input, and the output is displayed in the console. The 'Area of a Circle' function takes a radius of 24 and outputs an area of 1808.64. The 'Total due with tax' function takes a money value of 54 and a tax rate of 0.04, outputting a total due of 56.16. The 'Fahrenheit to Celsius' function takes a fahrenheit value of 73 and outputs a celsius value of 22.77777777777778. The console also shows the command prompt path and the process finished with exit code 0.

```
C:\Users\Mmati\PycharmProjects\functions\.venv\Scripts\python.exe C:\Users\Mmati\PycharmProjects\functions\functions.py  
=== Area of a Circle ===  
Enter the radius: 24  
The area of the circle is: 1808.64  
  
=== Total due with tax ===  
Enter the money: 54  
Enter the tax rate: (e.g., 0.06 for 6%): 0.04  
The total due: 56.16  
  
=== Fahrenheit to Celsius ===  
Enter the fahrenheit: 73  
Celcius: 22.77777777777778  
  
Process finished with exit code 0
```
